2. Total 61 Teams of NDRF have been deployed across the country. State wise deployment is at –**Annexure-II**.

3. **Forecast:**

➤ **India Meteorological Department (IMD)**

Date	Rainfall intensity and Probability	Region
21.11.2020	Heavy rainfall	Very likely at isolated places over Andaman & Nicobar Islands
	Thunderstorm with lightning	Very likely at isolated places over Odisha, Arunachal Pradesh, northeast Assam, Tripura and Andaman & Nicobar Islands.
22.11.2020	Thunderstorm with lightning	Very likely at isolated places over Andaman & Nicobar Islands, Jammu & Kashmir, Ladakh, Gilgit-Baltistan & Muzaffarabad and Himachal Pradesh.

**Significant Weather Features:-**

- The Well Marked Low Pressure Area over Southwest Arabian Sea & neighbourhood persists. The associated cyclonic circulation extending upto 4.5 km above mean sea level also persists. It is very likely to move west-northwestwards and concentrate into a Depression during next 24 hours. Since the system is away from the Indian coast it will not cause any adverse weather over Indian region. The system is under continuance surveillance and concerned State Governments are being regularly informed.
- Under the influence of the cyclonic circulation over Equatorial Indian Ocean and adjoining Southeast Bay of Bengal, a low pressure area has formed over Equatorial Indian Ocean and adjoining central parts of South Bay of Bengal. It is likely to concentrate into a depression over Southwest Bay of Bengal during next 48 hours and intensify further during subsequent 48 hours. It is very likely to move westnorthwestwards towards Srilanka-south Tamilnadu coast and reach near Tamilnadu & Puducherry coast on 25th November, 2020.
- Under the influence of above system, rainfall activity over south Peninsula very likely to increase from 23rd November with fairly widespread to widespread rainfall accompanied with thunderstorm & lightning is very likely over Tamilnadu, Puducherry & Karaikal and Kerala & Mahe during 24th & 25th November, 2020 and scattered to fairly widespread rainfall accompanied with thunderstorm & lightning is very likely over south coastal Andhra Pradesh and Rayalaseema and Isolated to scattered rainfall accompanied with thunderstorm & lightning is very likely over Telangana and South Interior Karnataka during the same period. isolated extremely rainfall likely over Tamilnadu, Puducherry & Karaikal on 24th & 25th November, 2020. Isolated heavy rainfall activity very likely over Kerala & Mahe during the same period and over South Interior Karnataka, South coastal Andhra Pradesh and Rayalaseema on 25th November, 2020.

**CENTRAL WATER COMMISSION (CWC):-**

- **Red Warning (Extreme Flood Situation)- Nil**
- **Orange Warning (Severe Flood Situation)- Nil**
- Brief about SMS alert sent by NERC in last 24 hours is attached as – **Annexure – III**
